Professional Summary

3.5 years in Software Development.
Cooperative, result-oriented worker.
Fast learner, thriving in dynamic environments,
eager to explore new tools & tackle challenges.
Excel in Python, prioritizing clean, maintainable code.
Skilled in Linux administration, Docker containerization,
scripting automation, CI/CD pipelines,
NoSQL & relational databases and data pipelines.

Languages

- Russian – C2
- English - B2+
- Romanian - B2

Skills

Programming Languages:

- Python
- Golang
- Bash
- JS

Software Development:

- Unit and Integration Testing
- Object-Oriented Programming
- Functional Programming
- Microservices Architecture
- Design and Architecture Patterns

Logging and Monitoring:

- ELK Stack
(Elasticsearch, Logstash, Kibana)
- Prometheus, Grafana
- Metrics Collection and Analysis
- Datadog

Data Management:

- Database Management
(Relational & NoSQL)
- Data Engineering
- Pipeline Orchestration
- SQL

Containerization and Orchestration:

- Docker
- Kubernetes (K8S) / K3S
- Airflow

Soft Skills:

- Effective Communication
- Teamwork and Collaboration
- Time Management
- Problem-Solving

Cloud Computing:

- AWS
- Snowflake

Work History

2023-12
2024-07

Data Engineer

Helium10 Data Team , Chishinau

- Managing Data pipeline Orchestration in Airflow
- Implementing Prometheus metrics
- Visualising metrics data into Grafana
- Building microservices from scratch
- implementing staging configurations
- Managing containers and images
- Creating custom docker configurations
- Cooperate with Data science and DevOps
- Refactoring code moving code into mono-repo for AWS (EKS) managed by Airflow

2022-11
2023-11

Golang Developer

Simpals, Chishinau

- Implementing new functionality
- Code base support fixing bugs ,
- Refactoring code to improve performance and readability
- Creating/Updating GraphQL shemas APIs
- Creating/Updating/Integrating REST APIs
- Creating/Updating/Integrating GRPC APIs
- Unit tests
- Integration tests scenarios
- Data imports/migrations

2021-11
2023-11

Python Developer

Simpals, Chishinau

- Code base support, fixing bugs
- Refactoring code to improve performance and readability
- Updating libraries and Python versions
- Implementing new functionality
- Creating/Updating/Integrating REST APIs
- Creating/Updating GraphQL APIs (Graphene)
- Async Code AsyncIO, FastAPI , Sanic , Tornado
- DB and queries optimizations
- Data migrations/imports

Technologies

- Docker
- Python
- REST
- GraphQL
- GRPC
- Mongo
- Elasticserch
- PostgreSQL
- Snowflake
- Airflow
- Kubernetes
- AWS
- Nginx
- MySql
- RabbitMQ
- Prometheus
- Grafana
- Pytorch
- Git
- CircleCI
- S3
- SQS

Education

- 2018-09 - **Information Technology**
- 2020-06 ASEM
Chishinau, Moldova
